EDUCATION

BS Computer Science – New Jersey Institute of Technology, Newark, NJ | GPA – 3.37 Sep 2022 - May 2026

Awards: NJIT Academic Merit Scholarship, **Dean's List:** Fall '22, Spring '23, Fall '23, Spring '24, Spring '25, Fall '25, Spring '26

WORK EXPERIENCE

Software Developer Intern | DentTracks

Jun 2026 – Present

- Architect and develop the DentCommLayer, a real-time staff communication system, utilizing a **NestJS** and **TypeScript REST API**, **Redis** pub/sub for cross-service message routing, **WebSockets** (Socket.io) for live notifications, and **MongoDB**.
- Orchestrate an autonomous **AI agent** (AI Ninja) using **Python 3.11**, **Llama 3.1 70B/8B** models, and **vLLM** on AWS EC2 GPU instances to autonomously resolve complex dental billing issues.
- Containerize the application stack using **Docker** for scalable **AWS ECS** deployment, strictly enforcing **HIPAA** compliance via Microsoft Presidio to scrub Protected Health Information (PHI) prior to **LLM** processing.

Software Engineer Intern | RDE Systems

Jan 2026 - May 2026

- Engineered a secure, full-stack Medication Management Web Application using **React**, an **Adobe ColdFusion REST API**, and **Microsoft Azure SQL** to streamline healthcare interactions.
- Implemented strict role-based access control utilizing **JWT** authentication and **bcrypt** to securely isolate patient portals, provider dashboards, and digital prescription systems.
- Delivered a scalable live cloud architecture alongside comprehensive technical documentation, including ER diagrams and UI flowcharts, to ensure enterprise-grade system reliability.

IST Service Desk Student Assistant | NJIT Digital Learning and Campus Support

Jan 2024 - May 2026

- Collaborated closely with full-time staff to optimize operations at the Information Services & Technology Desk, ensuring expedited resolution of user needs across all administrative departments at NJIT
- Utilized advanced troubleshooting skills to address complex tech issues, enhancing productivity for **13000+ students and staff**
- Achieved prompt resolutions for trouble tickets, ensuring high levels of customer satisfaction by efficiently managing tickets in **ServiceNow** & collaborating with team members for swift solutions

Software Engineer Intern | USA Dental Solutions

Jun 2023 - Sep 2023

- Contributed to the DentTracks SaaS platform by developing **APIs** to aggregate patient data into centralized **databases**, ensuring seamless synchronization and HIPAA compliance
- Engineered secure file processing workflows for automated reporting and integrated **Tableau** to visualize real-time KPIs on intuitive dashboards

SKILLS

Languages & Frameworks: Java, Python, C++, JavaScript, TypeScript, HTML/CSS, Adobe ColdFusion, PHP, SQL, React.js, Node.js, NestJS, Vite, Axios, JavaFX, Unity

AI/ML Tools: Llama 3.1, vLLM, GitHub Copilot, Cursor, ChatGPT, Claude code, OpenAI API, Scikit-learn, Pandas, NumPy

Enterprise Tools: Docker, Redis, MongoDB, Mongoose, WebSockets (Socket.io), Swagger, AWS, Azure, Azure SQL, Oracle Cloud (OCI), RESTful APIs, JWT, Git, GitHub, GitLab, JIRA, Agile/Scrum, ServiceNow, ITSM, Tableau, Power BI, Linux, Cloudflare, PostgreSQL, ERD, bcrypt.

PROJECTS

CareerOS

- Technologies Used: React.js, Node.js, PostgreSQL, OpenAI API, Cloudflare, Sentry
- Designed UI/UX prototypes and developed the Job Statistics dashboard to visualize application data for users
- Optimized application performance by implementing **lazy loading** and code splitting to maximize Lighthouse scores
- Hardened security using **Cloudflare** caching and integrated **Sentry** for real-time uptime monitoring and error tracking

Marine Navigation System

- Technologies Used: Microsoft Maps API, Marine Traffic API, PHP, HTML, CSS, SQL, JavaScript
- Crafted a dynamic & reliable web application serving as a navigation system for **real-time ocean mapping**, showcasing hundreds of global ship locations

Certifications

Power BI and Tableau for Data Visualization

- Power BI:** Mastered end-to-end analytics by utilizing **Power Query** for ETL processes (merging, pivoting) and designing complex data models (Star and Snowflake schemas) using **DAX functions**
- Tableau:** Specialized in advanced visualization techniques, creating interactive dashboards with calculated fields and custom hierarchies to translate raw data into strategic business insights

Oracle Cloud Infrastructure 2025 AI Foundations Associate

- Developed foundational knowledge in **AI, Machine Learning, Deep Learning, and Generative AI**, with a practical focus on their application within the Oracle Cloud Infrastructure (OCI)
