EDUCATION

BS Computer Science – New Jersey Institute of Technology, Newark, NJ | GPA – 3.36 Expected Graduation: May 2026

Awards: NJIT Academic Merit Scholarship**, Dean's List:** Fall '22, Spring '23, Fall '23, Spring '24, Spring '25, Fall '25

WORK EXPERIENCE

IST Service Desk Student Assistant | NJIT Digital Learning and Campus Support **Jan 2024 - Present**

- Collaborate closely with full-time staff to optimize operations at the Information Services & Technology Desk, ensuring expedited resolution of user needs across all administrative departments at NJIT
- Utilize advanced troubleshooting skills to address complex tech issues, enhancing productivity for **13000+ students and staff**
- Achieved prompt resolutions for trouble tickets, ensuring high levels of customer satisfaction by efficiently managing tickets in **ServiceNow** & collaborating with team members for swift solutions

Software Engineer Intern | RDE Systems **Jan 2026 - Present**

- Developing a secure Medical Management Web Application to streamline patient-doctor interactions, utilizing **ColdFusion, MS SQL, HTML, CSS, and JavaScript** for responsive web and mobile compatibility
- Engineered role-based features allowing practitioners to search patient directories, manage appointments, and issue digital medication prescriptions efficiently
- Delivered comprehensive technical documentation, including **ER diagrams, UI flowcharts, and security parameters**, ensuring a robust and scalable system architecture

Software Engineer Intern | USA Dental Solutions **Jun 2023 - Sep 2023**

- Contributed to the DentTracks SaaS platform by developing **APIs** to aggregate patient data into centralized **databases**, ensuring seamless synchronization and HIPAA compliance
- Engineered secure file processing workflows for automated reporting and integrated **Tableau** to visualize real-time KPIs on intuitive dashboards

SKILLS

Languages & Frameworks: Java, Python, C++, JavaScript, Node.js, React.js, HTML/CSS, HTTP, Azure, AWS, GitHub, MongoDB, ColdFusion, PHP, SQL, React.js, Node.js, JavaFX, Unity, OpenAI API

AI/ML & **Enterprise Tools:** Scikit-learn, Pandas, NumPy, GitHub, JIRA, Office 365, RESTful Apls, Oracle Cloud (OCI), Tableau, Power BI, ServiceNow, ITSM, Linux, AFS, MS Office 365, Cloudflare

PROJECTS

CareerOS

- Technologies Used: React.js, Node.js, PostgreSQL, OpenAI API, Cloudflare, Sentry
- Designed UI/UX prototypes and developed the Job Statistics dashboard to visualize application data for users
- Optimized application performance by implementing **lazy loading** and code splitting to maximize Lighthouse scores
- Hardened security using **Cloudflare** caching and integrated **Sentry** for real-time uptime monitoring and error tracking

Admin Dashboard

- Technologies Used: Java, JavaFX, MySQL Database
- Created an admin dashboard application to visualize & analyze monthly sales & other data for a company, offering **actionable insights** for informed business decision-making with a user-friendly interface

Marine Navigation System

- Technologies Used: Microsoft Maps API, Marine Traffic API, PHP, HTML, CSS, SQL, JavaScript
- Crafted a dynamic & reliable web application serving as a navigation system for **real-time ocean mapping**, showcasing hundreds of global ship locations

Certifications

Power BI and Tableau for Data Visualization

- Power BI: Mastered end-to-end analytics by utilizing **Power Query** for ETL processes (merging, pivoting) and designing complex data models (Star and Snowflake schemas) using **DAX functions**
- Tableau: Specialized in advanced visualization techniques, creating interactive dashboards with calculated fields and custom hierarchies to translate raw data into strategic business insights

Oracle Cloud Infrastructure 2025 AI Foundations Associate

- Developed foundational knowledge in **AI, Machine Learning, Deep Learning, and Generative AI**, with a practical focus on their application within the Oracle Cloud Infrastructure (OCI)

Cisco - Data Analytics

- Gained comprehensive knowledge in **Relational Databases**, **Cybersecurity**, and **Automation**. Gained proficiency in Tableau for data visualization and developed an understanding of **Big Data** infrastructure and architecture
